DESIGNER BAKING

Client: Skoufa Gallery
Design: STUDIOLAV
Photography: Predrag Pajdic

Fashion meets baking with this set of pyramid-shaped kitchen stamps. Reliefs of iconic fabric patterns such as Pied de Poule and Herringbone Tweed have been embossed on to the base of the stamps to allow bakers to imprint these patterns onto fresh dough, transforming your bread, cookies and pies into small “haute couture” baking marvels.

The traditional quote “bread and olive” led STUDIOLAV to design this set of stamps to be made from solid olive wood.

‘Designer Baking’ was a response to the initiative of Skoufa Gallery in Athens. The designers were invited to create and develop a contemporary version of “folklore.”
